

BILAL MAHESANIYA

JUNIOR UI/UX DESIGNER • COMPUTER SCIENCE • 1 YEAR EXP @ XIPRA TECH

Email: bilalmahesaniya7@gmail.com | Phone: +91 8160280803 | Gujarat, India | Portfolio: bilalmahesaniya.github.io

PROFESSIONAL SUMMARY

Product-minded UI/UX Designer with **1 year of commercial experience at Xipra Tech** and a strong academic foundation in **Computer Science** at Gujarat Technological University (GTU). Specialized in architecting scalable design systems, token frameworks, gesture-driven mobile experiences, and production Figma prototypes. Expertise across the complete double-diamond UX cycle—user research, information architecture, wireframing, WCAG 2.1 AA accessibility, and developer handoff.

PROFESSIONAL EXPERIENCE

UI/UX Designer | Xipra Tech

June 2023 – July 2024 | Commercial Product Design

- Architected multi-brand design systems, token taxonomies, and component variant libraries in Figma.
- Designed end-to-end mobile user journeys for food delivery (Foodgo) and on-demand home maintenance services.
- Built high-fidelity, interactive prototypes with realistic motion micro-interactions for user testing and stakeholder review.
- Conducted usability audits and implemented WCAG 2.1 AA compliant color contrast and accessible touch targets.
- Partnered closely with engineering teams to ensure pixel-perfect fidelity during implementation and component handoff.

FEATURED PORTFOLIO PROJECTS

Foodgo — Mobile Food Ordering Application [Figma, Mobile UX, Design System]

- Designed intuitive search, multi-topping customizable meal builders, cart checkout flows, and delivery tracking funnels.

CineWave — OTT Streaming & Entertainment Platform [Responsive Web, Design Tokens]

- Engineered dark-theme video browsing dashboard with contextual preview carousels, genre filtering, and responsive watch states.

MetaPlanet — Spatial Web & VR Portal [Spatial UX, 3D Web Interface]

- Crafted spatial canvas interfaces, immersive hero transitions, and responsive modal interactions for next-generation web products.

HomeEase — On-Demand Allied Home Services [Mobile App, Two-Sided Market]

- Designed service provider scheduling, geo-location booking, transparent pricing estimates, and real-time status notifications.

EDUCATION

Computer Science | Gujarat Technological University (GTU)

2023 – PRESENT | Ongoing

Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Web Technologies (HTML5/CSS3/JS). Bridges UI design architecture with software engineering principles.

Higher Secondary Certificate (12th Science Stream) | GSEB

COMPLETED

Focus in Mathematics, Physics, Analytical Logic, and Structured Quantitative Problem Solving.

TECHNICAL PROFICIENCIES & CERTIFICATIONS

Design & Prototyping: Figma (Expert), Auto-Layout, Component Variants, Interactive Prototyping, Design Tokens, Micro-Interactions, Wireframing

Visual & Graphic Tools: Adobe Illustrator, Adobe Photoshop, Canva, Vector Design, Brand Identity

Frontend & Development: HTML5, CSS3, Tailwind CSS, JavaScript, React/Next.js Foundations, Git Version Control

Certifications: Certified UI/UX Designer (Xipra Tech, XT-UIUX-2024), Design Systems & Prototyping Specialist (Xipra Tech,

XT-UIUX-ADV)
